State Comments:

The only hazardous waste at this site is paint solvent. RCRA inspectors have determined that this material is properly stored and disposed of. Markhon Industries used to own a property directly to the west of Markhon's buildings which has a small "dump" area on it. According to George Rapp, maintenance supervisor for Markhon, the dump material is not from Markhon and was not there when Markhon owned that property. The material appears to be non-hazardous anyway.

For these reasons, the State recommends "a no further action" priority assessment.
